HALF RATE FOR TEACHERS.

A great victory has been achieved  
for education in New Mexico. The  
Santa Fe railroad, and probably all  
others in the state, has granted a one  
fare for the round trip to the New  
Mexico Educational association meet-  
ing which will be held in Albuquer-  
que beginning November 22 and end-  
ing the day before Thanksgiving. One  
of the best things about it is that am-  
ple time is given for the teachers to  
get here and return home. Many of  
them have to be here Saturday, the  
23rd, for the educational council. All  
will expect to be here by Monday  
morning. The return rate is good  
until December 1.

From all indications, the attend-  
ance is to be the largest by far in the  
history of the state. Certainly it is  
the most important educational meet-  
ing, in many respects, ever held in  
New Mexico.

Albuquerque is preparing for a re-  
cord-breaking crowd here, and Dr.  
John H. Vaughan, the president, sec-  
retary J. H. Warner and the members  
of the executive committee have  
furnished a program never before  
equalled in the southwest, viewed  
from the standpoint both of instruc-  
tion and entertainment.

The lowest railroad rates will per-  
mit hundreds, not actively engaged in  
educational work, to come to Albu-  
querque and have the advantage of  
the meetings. It only costs one dol-  
lar to become a member of the as-  
sociation, with the privilege of attend-  
ing all meetings, day and night, and  
of voting on all questions which come  
before the convention. In other  
words, for the sum of one dollar one  
is entitled for one year as a teacher  
in New Mexico. Of course, if one  
desires to become an actual teacher  
there are a few preliminaries in the  
way of examinations, mostly for the  
satisfaction of the state superinten-  
dent's office of moral and mental  
qualification.

The state teachers' association, has  
grown in four years from a member-  
ship of 450 to about 1,200, and it is  
expected that the 1,200 mark will be  
reached this year.

In proportion to population, no  
such record is made in any other  
state of the union, nor has there been  
so much progress made in education  
in any other state as has been shown  
in New Mexico during the past three  
years. The campaign to furnish lit-  
erature is winning, and the New Mex-  
ico Educational association has been  
shown to be the most effective in-  
strument of that campaign. It has  
put new life into the school work of  
the state.

All true Americans are realizing  
that this country has kept out of war  
but at a cost of these same people  
are exhibiting Greece for not pushing  
it away.

THE FARM STRATEGY.

The picture of the Middle school  
state the battle of Verdun and upon  
the field of war endeavor to repeat  
the mistakes of Verdun. These  
were German. However, do not have  
much reason for the French strategy  
which finally reduced the German  
armies to ruins. The French  
strategy, although admirable, at  
the expense of thousands of the  
officers of the greatest military  
genius, except Napoleon, that history  
knows.

The tactics of Verdun, now in  
France in 1915. They are winning  
victories in German today, and for  
three months in the future, but  
whether they are of real benefit, to  
be seen. Another, as long as the  
great tanks remained in position of  
the Germans, he opposed the offen-  
sive of von Hindenburg and von  
Mackensen—the greatest offensive in  
history—by a strategy essentially Pa-  
blan.

The Romans, although they had  
been routed on the Trebia and by  
Lake Trasimene, grew impatient of  
Fabian defense and selected consuls  
specially charged to attack Hannibal

in the field. The annihilation of  
Carthage was the upshot after which  
the Romans reverted to the policy of  
Fabian next to meet the Carthagini-  
ans in pitched battle, but to wait  
them down and smother their gains.

A hundred years ago, the German  
commander-in-chief was also a Pa-  
blan. He would not have defended  
Verdun, but the rubber generals in-  
sisted on the battle of Verdun, which  
neither stopped Napoleon nor  
saved Verdun. After Verdun a  
cautious defensive was required.

In France Joffre has conducted a  
defensive war from the beginning,  
and there are those who have criti-  
cized the French commander for not  
being more aggressive. They want  
an aggressive campaign which will  
win or lose all in a battle. But Joffre  
does not mean to stake the destiny of  
France on a general engagement  
when he is able to "mangle" away the  
German strategy by fighting defen-  
sively, from strongly entrenched po-  
sitions, except on opportunity comes  
now and then for a safe offensive  
stroke.

Kilbuck says that Hannibal is so  
vast and so great for maneuver-  
ing that the war a armies never  
have failed finally to envelop the in-  
vader. The German commanders  
say that conditions are so different  
now that against their tremendous  
war machine the Russian defensive  
has no chance.

History repeats itself and also it  
doesn't. We shall see.

The Turks say they do not want to  
lose the friendship of the United  
States. Wonder if they are getting  
an inkling of how dearly we don't  
love them?

GERMAN SOLIDARITY.

Back of Germany's supreme effi-  
ciency, military, industrial, admini-  
strative and financial, lies a patriotism  
so united and devoted as to be an ex-  
ample to her enemies. The Ger-  
mans may be misled, but they follow  
unflinchingly and unitedly.

At almost the same time, the Ger-  
mans subscribed about half as much  
money to a third government loan as  
the American banks subscribed to the  
joint loan of Great Britain and  
France. The new German loan is  
more than three-quarters of a billion  
dollars, and it came out of the sav-  
ings of the people. The depositors  
were not consulted, they didn't have  
to be consulted, and the banks were  
hardly consulted. The empire that  
dominates both depositors and banks  
wanted it and took it.

But the people raised no voice of  
objection. They are giving their all  
to the empire, gold wedding rings,  
watch cases, silver spoons to be col-  
lected into money of the realm, and they  
are giving their lives in the trenches.

This is why Germany can dispense  
with foreign loans, and raise its own  
war funds as well as its own food, if  
only it could.

Germany is an example which the  
world might well follow. But the  
German officials have an easier time  
of it than the English have, because  
they are succeeding while the British  
are failing. It is difficult to court  
mortal victory, while with a de-  
feat it is easy.

Some of their friends are advising  
the president and Mrs. Galt to elope.  
They won't, because each of them is  
old enough to know better.

THE FARMERS' RECORD.

The farmers of the country have  
now met the nation's mission for civi-  
lization and humanity in a way that  
will lay a firm foundation for last-  
ing prosperity than the ephemeral  
trade in munitions of war. They have  
been to the aid of a vast area with  
a record-breaking production of food  
for the world.

The wheat crop of 1915 exceeds the  
highest previous record by 11,000,000  
bushels. The corn crop exceeds any  
other year except the remarkable  
yield of 1912.

A large part of the increase comes  
from southern states, where heretofore  
attention has been almost exclu-  
sively on the farmer. The cotton  
crop, reduced in acreage in expecta-  
tion of reduced demand, will be short,  
but the total increase will more than  
make up for this deficiency.

This excess of agricultural produc-  
tion will not only fulfill a higher mis-  
sion to civilization than the making  
of munitions for the fighting drive,  
but it will cost more purely upon ev-  
ery kind of domestic business from  
the railroad that carry it to the com-  
municable routes and industries that are  
built on large grain cargoes and  
transport properties.

When the farmer prospers the  
country prospers.

An Ohio man has received word  
that he is due here to an estate of  
\$12,000 in Alaska. But will he  
dare go there to get it?

It is generally agreed that Great  
Britain has readily utilized its mis-  
takes, found lying around loose.

A Missouri man named Jenks has  
inherited his son C. G., which means  
for Charlie Chaplin.

How could you like to take college  
or university work with the United  
States government as a teacher?

Under the comprehensive scheme  
now being perfected and developed as  
the Bureau of Education, you can do  
so. Ten courses have been outlined  
and are now open for enrollment in  
all fifty states, D. C., and Alaska. You  
may enroll in any or all of them, have  
your work checked from Washington  
and upon completion of the required  
work, a certificate showing to the  
Bureau that you have completed it,  
and you will receive a certificate from the  
United States Bureau of Education  
showing its seal and the signature of  
the Commissioner of Education, D. C.

The home education division of the  
Bureau of Education in the depart-  
ment of the interior is making arrange-  
ments to enroll or enroll in the  
education, educators of note from a  
number of the leading universities  
have been enlisted to assist the in-  
struction of students of the world. And  
the course under their direction will  
be a liberal education in each of the  
fields covered, as the outline of the

## SUDDEN DEATH

Caused by Disease of the Kidneys.

The close connection which exists  
between the heart and the kidneys is  
well known nowadays. As soon as  
kidneys are diseased, arterial tension  
is increased and the heart functions  
are affected. When the kidneys no  
longer purify the blood, uric acid  
accumulates, and the person dies and  
the cause is often given as heart dis-  
ease, or disease of brain or lungs.  
It is a good insurance against such a  
risk to send 75 cents for a sample  
package of "Au-rite"—the latest dis-  
covery of Dr. Pierce. Also send a  
sample of your water. This will be  
examined without charge by expert  
chemists at Dr. Pierce's Invalid Hotel,  
Buffalo, N. Y. When you suffer from  
backache, frequent or scanty urine,  
rheumatic pains here or there, or that  
constant tired, worn-out feeling, it's  
time to write Dr. Pierce, describe your  
symptoms and get his medical opinion  
—without charge and absolutely free.  
This "Au-rite" of Dr. Pierce is 75  
times more active than lithia, for it

removes uric acid in the system as  
hot water does sugar.  
Simply ask for Dr. Pierce's Au-rite  
Tablets. There can be no imitation.  
Every package of "Au-rite" is signed  
by Dr. Pierce. You will find the sig-  
nature in the package just as you  
on Dr. Pierce's Favorite Prescription,  
the ever-famous friend to ailing  
women.

WORRY, DESPONDENCY.

Kidney Disease is evidenced by med-  
ical men when patients complain of  
backache or suffer with frequent urina-  
tion, disturbed, too frequent, scanty  
or painful passage. The general  
symptoms are rheumatic pains or neu-  
ralgia, headaches, dizziness, irrita-  
bility, despondency, weakness and  
general misery. Worry is a frequent  
cause, and sometimes a symptom of  
kidney disease. Thousands have been  
relieved by immediate relief from these  
symptoms after using Dr. Pierce's Au-rite  
Kidney Tablets.—Adv.

## With Scissors and Paste

HIS OWN CHINA.

In the early days in California very  
little china was used that did not  
come from the Orient. A man whose  
home was in Folsom, who preferred  
china of Europe, took advantage of a  
visit to England to order a complete  
dinner set ornamented with a design  
of his own selection. In the course  
of time this was packed and shipped  
to San Francisco by sailing vessel  
round the horn—but after long delay  
the vessel was given up as lost and  
never afterward heard from. Years  
afterward while traveling in China, he  
was invited to dine at the home of a  
missionary. What was his astonish-  
ment to find the table set with his  
own dishes brought so long ago! Con-  
fessing his surprise he commented on  
the beauty of the china, and this  
called forth an explanation from his  
hostess. She told him the china had  
an interesting history, as it had been  
washed up on the rocky shore and  
they had brought it from the man who  
had recovered it from the wreck. Sur-  
prising as it may seem he never told  
his host that he was eating off his  
own dishes.

## Hops

—On hop quality depends beer flavor

Those remarkable qualities of Budweiser and Michelob  
which distinguish them as being superior to other beers are their  
deliciously refreshing, never varying taste and exquisite bouquet—due to  
the exclusive use of the very best Saazar (Bohemian) Hops.

And there's no danger of our supply of these vitally  
important hops failing.

For years it has been an established rule to keep on  
hand a two-year in advance supply.

During the summer of 1914 our president, while on  
his annual hop buying trip abroad, selected and purchased  
775,000 pounds (1550 bales) of the choicest Saazar Hops—  
and was fortunate in having them shipped to this country before the embargo  
was rigidly enforced in March, this year. Add this to the 500,000 pounds  
on hand and you see how secure is our position.

This foresight enables us to give to our millions of  
friends exactly the same beer, flavored with exactly the same  
hops that have helped to make Budweiser quality and Michelob goodness  
known and liked the world over. Our supply is sufficient to last at least  
until the closing days of 1917.

The above illustration shows our tremendous  
hop building, which is a landmark of St. Louis.  
It is a fine example of the architecture of the  
early 20th century. The building is made of  
brick and has many windows. It is a very  
large building and is a very important part  
of our business.
